Subject Index

Anaemia, acquired idiopathic sideroblastic, two types of (SANZ *et al*), 633
Anaemia, anticancer drug-induced, effect of recombinant human erythropoietin on (MATSUMOTO *et al*), 463
Anaemia, aplastic, antilymphocyte globulin therapy enhances impaired function of natural killer cells and lymphokine activated killer cells in (MYINT *et al*), 578
Anaemia, aplastic, bone marrow, long-term culture of (GIBSON & GORDON-SMITH), 421
Anaemia, aplastic, incomplete marrow recovery associated with hepatitis after syngeneic bone marrow transplantation for: successful treatment with second marrow transplantation without preconditioning (NIKI *et al*), 285
Anaemia, very severe aplastic, the successful treatment of a case of, with granulocyte-macrophage stimulating factor and anti-lymphocyte globulin (POTTER *et al*), 618.
Antibodies, murine monoclonal, against a unique determinant of erythrocytes, related to Rh and U antigens: expression on normal and malignant erythrocyte precursors and Rh_{null} red cells (VON DEM BORNE *et al*), 254
Antithrombin II activity in healthy blood donors: age and sex related changes and the prevalence of asymptomatic deficiency (TAIT *et al*), 141
Antithrombin III Franconville, a variant with Pro 41 Leu mutation, clinical and biochemical characterization of (DE ROUX *et al*), 222
Ascorbate for the treatment of idiopathic thrombocytopenic purpura (TOYAMA *et al*), 623
Autoimmune thrombocytopenic purpura, chronic, treatment with ascorbate (GODEAU & BIERLING), 289

Band 3 variants of human red cell membranes in some different populations, frequencies of (RANNEY *et al*), 262
Bernard-Soulier platelets, a study of: the common pathway for alpha- and gamma-thrombin-induced platelet activation is independent of GPIb (JANDROT-PERRUS *et al*), 385
B-lymphocyte clones, rare, in a polyclonal population, development of a highly sensitive assay, based on the polymerase chain reaction, for (BRISCO *et al*), 163
Blood transfusion in the para-Bombay phenotype (LIN-CHU & BROADBERRY), 568
Bone marrow transplantation, allogeneic, for secondary leukaemia and myelodysplastic syndrome (BANDINI *et al*), 442
Bone marrow transplantation, cytogenetic and molecular analysis of relapse following (CHALMERS *et al*), 631
Book reviews
Atlas of Clinical Haematology, 447
Automation in Blood Transfusion, 144
Clinical Haematology, 301
Colony-Stimulating Factors: Molecular and Cellular Biology, 302
Colour Atlas of Paediatric Haematology, 447
De Gruchy's Clinical Haematology in Medical Practice, 5th edn, 301
Factor VIII–von Willibrand Factor, 635
Handbook of Haematological Investigations in Children, 144
Leucocyte Typing. IV. White Cell Differentiation Antigens, 635
Lymphocytes in the Immunotherapy of Cancer, 447
Methods in Hematology: Molecular Genetics, 301
New Aspects in the Diagnosis and Treatment of Hodgkin's Disease, 302
Platelets and Vascular Occlusion, 145
Polymers: Their Properties and Blood Compatibility, 300
Recent Advances in Hemophilia Care, 635
The Spleen. Structure, function and clinical significance, 300

Chelator, an oral iron, studies of: 1,2-dimethyl-3-hydroxy-pyrid-4-one. I. Iron excretion in rats: development of a new rapid microwave method for iron analysis in faeces (VENTKARAM & RAHMAN), 274
Colony stimulating factors, impact on cancer chemotherapy (MORSTYN), 303
Crenated cell syndrome (SIMPSON), 179
Cyclosporin-A, reversal of drug-resistance by, in a patient with acute leukaemia (SONNEVELD & NOOTER), 208

Desferroxamine, parasite uptake of: a prerequisite for antimalarial activity (SCOTT *et al*), 598

EBV and Hogkin's cells (KUBONISHI *et al*), 286
Epstein-Barr virus DNA, detection by polymerase chain reaction in lymph node biopsies from patients with angioimmunoblastic lymphadenopathy (KNECHT *et al*, 610)
Erythroleukaemia, morphologic, immunologic and cytogenetic studies in: evidence for multilineage involvement and identification of two distinct cytogenetic-clinicopathological types (CUNEO *et al*), 346
Erythropoietin, recombinant human, effects on anaemic W/W^v and Sl/Sl^d mice (CYNSHI *et al*), 319
Erythropoietin, recombinant human, subcutaneous administration of, to subjects on continuous ambulatory peritoneal dialysis: an erythrokinetic assessment (HUGHES *et al*), 268

Fibrinolysis in septic patients in an intensive care unit, activation and inhibition of (VOSS *et al*), 99
Fibronectin, role in platelet aggregation (THURLOW *et al*), 549

Gammopathies, monoclonal, aberrant expression of immunoglobulin light chain isotype in B lymphocytes from patients with: isotypic discordance and clonal B-cell excess (ORITANI *et al*), 10
Gene therapy: current status and future directions (APPERLEY & WILLIAMS), 148
Globin, β-, gene nonsense mutation (B121 GAA→TAA), isolation and characterization of the translation product of (ADAMS *et al*), 561
Globin chain β^{Makabe}, a novel elongated: a single nucleotide deletion in codon 123 of the β-globin gene causes an inclusion body β-thalassaemia trait (FUCHAROEN *et al*), 393

Graft-versus-host disease, chronic, and HLA-DR4, in the southern German population (PAWELEC *et al*), 295
Granulocyte-macrophage colony stimulating factor: *in vivo* priming of human normal neutrophils by: effect on the production of platelet activating factor (AGLIETTA *et al*), 333

Haemolysis, severe intravascular, associated with polyagglutinability (SAYAS *et al*), 433
Haemophilia A due to a missense mutation (372→Cys) at the internal heavy chain thrombin cleavage site (PATTINSON *et al*), 73
Haemophilia A, multiple Xba polymorphism in (MCCRAW *et al*), 292
Haemophilia, acquired, the rapid development of an IgM inhibitor of porcine factor VIII in a patient with (WESTON SMITH *et al*), 434
Haemophilia B, moderate mild, a past mutation at Isoleucine^{397} is now a common cause of (BOTTEMA *et al*), 212
Haemophilia B_m, mild, a mutation adjacent to the beta cleavage site of factor IX (valine 182 to leucine) results in (TAYLOR *et al*), 217
Haemophilia protects against ischaemic heart disease: a study of risk factors (ROSENDAAL *et al*), 525
Haemopoietic growth factors, the consequences of excess levels of (METCALF), 1
Hb Icaria–Hb H disease: identification of the Hb Icaria mutation through analysis of amplified DNA (EFREMOV *et al*), 250
Histiocytosis, malignant, clinicopathological diagnosis and treatment of (SONNEVELD *et al*), 511
Histiocytosis, treatment of children with (REID *et al*), 296
HIV infection and AIDS in Italian haemophiliacs, susceptibility to is HLA associated (FABIO *et al*), 531
HIV infection in a haemophilic cohort, ten-year follow up of (LEE *et al*), 623
HLA class I expression on erythrocytes and platelets form patients with systemic lupus erythematosus, rheumatoid arthritis and from normal subjects (BOTTO *et al*), 106
Hodgkin's disease, fibrosis in (KUBONISHI *et al*), 629
Hodgkin's disease, serum levels of soluble CD30 molecule (Ki-1 antigen) in: relationship with disease activity and clinical stage (PIZZOLO *et al*), 282
Hypereosinophilic syndrome, alfa-interferon in a case of (MURPHY *et al*), 619
Hypoxia, the effect on capillary endothelial cell function: modulation of barrier and coagulant function (OGAWA *et al*), 517

Idiopathic thrombocytopenic purpura, chronic, two human monoclonal antiplatelet autoantibodies established from patients with (HONDA *et al*), 245
Interleukin 2 does not promote the *in vitro* and *in vivo* proliferation and growth of human acute leukaemia cells of myeloid and lymphoid origin (FOA *et al*), 34
Interleukin 5 activity in sera from patients with eosinophilia (ENOKIHARA *et al*), 458
Iron absorption, serum transferrin receptor as an index of (COOK *et al*), 603

Ki-1 large cell anaplastic lymphoma, a novel variant translocation t(2;13)(p23;q34) in (SAINATI *et al*), 621

LAK cell lysis, malignant plasma cells are sensitive to: pre-clinical and clinical studies of interleukin 2 in the treatment of multiple myeloma (GOTTLIEB *et al*), 499
Leucocyte-poor blood components, duration of first remission in leukaemic recipients of (REBULLA *et al*), 441
Leukaemia, acute, and myelodysplastic disorders, contrasting patterns of neoplastic cell behaviour in long-term culture of bone marrow from patients with (FIRKIN *et al*), 476
Leukaemia, acute lymphoblastic, clinical significance of the presence of myeloid associated antigens in (URBANO-ISPIZUA *et al*), 202
Leukaemia, acute lymphoblastic, with cytoplasmic granules or inclusions (SMITH *et al*), 440
Leukaemia, acute monocytic, in adults: treatment and prognosis in 99 cases (FENAUX *et al*), 41
Leukaemia, acute myeloblastic, enhanced growth of clonogenic cells from, by erythropoietin (MOTOJI *et al*), 60
Leukaemia, acute myelogenous, MDR_1 transcript levels as an indication of resistant disease in (SATO *et al*), 340
Leukaemia, acute myeloid, adjuvant immunotherapy with BCG of: a 15 year follow-up (REIZENSTEIN), 286
Leukaemia, acute myeloid, adult patients, long-term follow-up of (ROBERTS *et al*), 632
Leukaemia, acute myeloid, long-term bone marrow damage after chemotherapy for, does not improve with time (CHANG *et al*), 68
Leukaemia, acute myeloid, no difference between cytochemical and immunological detection of (DIJKSTRA *et al*), 630
Leukaemia, B-cell chronic lymphocytic and hairy cell like phenotypes, induction by phorbol ester treatment of normal peripheral bood B-cells (VISSER & POPPEMA), 359
Leukaemia, childhood lymphoblastic, testicular irradiation in (EDEN *et al*), 496
Leukaemia, chronic myelogenous, chromosome and bcr rearrangement in, and their correlation with clinical states and prognosis of the disease (TIEN *et al*), 469
Leukaemia, chronic myeloid, patients in complete remission using the polymerase chain reaction and nested primers, detection of residual BCR/ABL transcripts in (MARTIAT *et al*), 355
Leukaemia, hairy cell, erythrocytosis in, following therapy with interferon alpha (STEIS *et al*), 133
Leukaemia/lymphoma, aggressive natural killer cell; report of four cases and review of the literature. Possible existence of a new clinical entity originating from the third lineage of lymphoid cells (IMAMURA *et al*), 49
Leukaemia, T cell acute lymphoblastic, isochrome 7q is restricted to the lymphoid lineage in (YAMADA *et al*), 137
Leukaemias, acute lymphoid and myeloid, type II oestrogen binding sites in: growth inhibitory effect of oestrogen and flavonoids (LAROCCA *et al*), 489
Lymphadenopathy, angioimmunoblastic, increased serum levels of soluble IL-2 receptor, CD30 and CD8 molecules, and gamma-interferon in: possible pathogenetic role of immunoactivation mechanisms (PIZZOLO *et al*), 485
Lymphocyte activation in human lymphoid tissues, immunohistocytochemical correlation of DAP IV-CD 26 reactivity with immunologic markers of (COZZI *et al*), 325
Lymphocyte IL2-receptor expression, inhibition of, by factor VIII concentrate: a possible cause of immunosuppression in haemophiliacs (HAY *et al*), 278
Lymphocytosis, exercise-induced CD8: a phenomenon associated with large granular lymphocyte leukaemia (MULLIGAN *et al*), 175
Lymphogranulomatosis X: complete remission by low dose interferon-alpha (MEUTHEN *et al*), 438
Lymphoma, follicular, variant t(2;18) translocation in a (LEROUX *et al*), 290
Lymphoma, the role of the *bcl*-gene in (COTTER), 449
Lymphomas, malignant B cell, BCL-2 gene rearrangements in (GRIESSER & LENNERT), 142

Megakaryocyte potentiatior, murine, tissue sources of: biochemical and immunological studies (BANU *et al*), 313
Multiple myeloma, is the newly proposed prognostic system for useful? (MONTERO GARCIA *et al*), 140
Myelodysplastic syndrome, functional studies of bone marrow haemopoietic and stromal cells in (COUTINHO *et al*), 16
Myelodysplastic syndromes, bone marrow biopsy in: morphological characteristics and contribution to the study of prognostic factors (RÍOS *et al*), 26
Myelodysplastic syndromes, prodromal cutaneous vasculitis in (PAGLIUCA *et al*), 444
Myelofibrosis with myeloid metaplasia: clinical and haematological parameters predicting survival in a series of 133 patients (VISANI *et al*), 4
Myeloma, multiple, a further tool in the investigation of the biology of: characterization of a new IgGλ myeloma plasma cell line (EJM) (HAMILTON *et al*), 378
Myeloma, multiple, colony stimulating activity in the serum of patients with, is enhanced by interleukin 3: a possible role for

interleukin 3 after high dose melphalan and autologous bone marrow transplantation for multiple myeloma (MILLAR *et al*), 366
Myeloma, multiple, high serum IL-2 levels are predictive of prolonged survival in (CIMINO *et al*), 373
Myelomatosis, long-term prognostic value of serum β_2 microglobulin in (CUZICK *et al*), 506

Neutropenia, childhood cyclic, treated with recombinant human granulocyte stimulating factor (HANADA *et al*), 135

Paroxysmal nocturnal haemoglobinuria, characterization of the erythropoietic progenitor cells (BFU-E) in (TERASAWA *et al*), 428
Plasminogen activator inhibitor (PAI-1), the platelet and plasma pools of, vary independently in disease (SIMPSON *et al*), 543
Platelet adhesion (DE GROOT & SIXMA), 308
Platelet adhesion to subendothelium, dietary fish lipids do not diminish (OWENS & CAVE), 82
Platelet antigens that bind platelet-associated autoantibodies in chronic ITP by direct immunoprecipitation procedure, demonstration of (TOMIYAMA *et al*), 92
Platelet concentrates, evaluation of a new UVB source for irradiation of (VAN PROOIJEN *et al*), 573
Platelet concentrates, 7-day storage of, and 42-day storage of red cell concentrates, development of a combined storage medium for (HEATON *et al*), 400
Platelet concentrates irradiated with ultraviolet light retain satisfactory *in vitro* storage characteristics and *in vivo* survival (PAMPHILON *et al*), 240
Platelet glycoprotein Ia–IIa-associated Br-alloantigen system is expressed by cultured endothelial cells (GILTAY *et al*), 557
Platelet refractoriness, early, transfusion of ABO-mismatched platelets leads to (CARR *et al*), 408
Platelet storage pool deficiency: diagnosis in patients with prolonged bleeding times and normal platelet aggregation (ISRAELS *et al*), 118
PNH patients, estimation of PI-bound proteins on blood cells from, by quantitative flow cytometry (PLESNER *et al*), 585
Polycythaemia, primary: positive diagnosis using the differential response of primitive and mature erythroid progenitors to erythropoietin, interleukin 3 and alpha-interferon (DUDLEY *et al*), 188
Porphyria, late onset congenital erythropoietic, hematin therapy in (RANK *et al*), 617
Purine nucleoside phosphorylase, inhibition of, reduces refractoriness to transfused platelets in a dog model (SLICHTER *et al*), 591
Purpura fulminans, acquired, protein C and protein S levels in two patients with (MADDEN *et al*), 112

Red cell membrane protein 4.2, a haemolytic syndrome associated with the complete absence of, in two Tunisian siblings (GHANEM *et al*), 414
Retinal vein occlusion, increased red blood cell aggregation in (CHABANEL *et al*), 127
rhGM-CSF, the effects of, on the neutrophil respiratory burst when studied in whole blood (JASWON *et al*), 181

Stem cell recovery from cyclophosphamide-induced myelosuppression requires the presence of $CD4^+$ cells (PANTEL *et al*), 168

Thalassaemia, β-, alleles, common, frequencies among different populations: variability in clinical severity (HUISMAN), 454
Thalassaemia, β^+-, two novel polyadenylation mutations leading to (JANKOVIC *et al*), 122
Thalassaemia, $-87C \rightarrow G\beta^+$-, the homozygous state for (CAMASCHELLA *et al*), 132
Thrombocytopenia after bone marrow transplantation for leukaemia: changes in megakaryocyte growth and growth-promoting activity (ADAMS *et al*), 195
Thrombocytopenia, HIV-related, antibodies against cryptantigens of platelets in patients with (MUÑIZ-DIAZ *et al*), 298
Thrombosis, bedside blood filtration and risk of (BAKER *et al*), 297

Vasculitis, systemic, and myelodysplasia (WARREN *et al*), 627
Vitamin K and vitamin K-dependent proteins (SHEARER), 156
Vitamin K-dependent procoagulants and anticoagulants, hereditary deficiency of all (BRENNER *et al*), 537
von Willebrand's disease, clinical and laboratory evaluation of National Health Service factor VIII concentrate (8Y) for the treatment of (CUMMING *et al*), 234
von Willebrand's disease patients, clinical and laboratory evaluation of the treatment of, with heat-treated factor VIII concentrate (BPL 8Y) (PASI *et al*), 228
von Willebrand's disease, severe, an infrequent DNA polymorphism associated with (CAEKEBEKE-PEERLINCK *et al*), 78
von Willebrand type IIB, spontaneous platelet aggregation during pregnancy in patients with, can be blocked by monoclonal antibodies to both platelet glycoproteins Ib and IIb/IIIa (PARETI *et al*), 86

Wiskott-Aldrich syndrome, mono-oligoclonal production of immunoglobulins in a child with (TISSOT *et al*), 436
